alpatamer.dev | linkedin.com/in/alpatamer | github.com/alpatamerr

SUMMARY

MSc Computer Science graduate and Software Engineer with a background bridging technical execution, cross-functional communication, and external stakeholder management. Experienced in building automated data pipelines, configuring RESTful APIs, and managing cloud infrastructure. Eligible to work in the UK with a valid work permit.

EDUCATION

MSc in Computer Science | University of Birmingham | Sep 2024 – Sep 2025
BA in International Relations | Bilkent University | Sep 2018 – Sep 2024

EXPERIENCE

Software Engineer – Draftwise | Remote, New York, USA | May 2024 – Sep 2024

- Supported pre-sales technical scoping for 10+ accounts, building data dashboards tracking 20+ pipeline KPIs to identify expansion trends.
- Onboarded 5+ law firm clients by authoring technical docs and conducting live QA sessions with partners to ensure product adoption.
- Handled L3 engineering support and root-cause analysis for escalated technical issues, collaborating with the core team to ship backend software patches.
- Engineered 2 Python data pipelines for HubSpot and DocuSign APIs, utilizing AWS S3 for scalable storage.
- Developed React/TypeScript dashboard components using PostgreSQL constraints to prevent duplicate API errors.

Research Assistant Data Analyst – Bilkent University | Ankara, Turkey | Sep 2022 – Jun 2023

- Built simulation models in AnyLogic across 3 international logistics scenarios, identifying process bottlenecks and operational inefficiencies.
- Utilized Python and SQL to analyze logistics datasets of 1,000+ records, translating raw data into actionable cost-reduction strategies.
- Delivered 2 technical presentations and walkthroughs of optimization models to academic, industrial, and external project stakeholders to drive alignment.

International Relations Intern – Ministry of Foreign Affairs of Turkey | Ankara, Turkey | Jun 2022 – Jul 2022

- Developed an internal web platform using HTML, CSS, and basic JavaScript, improving accessibility to 50+ departmental resources for a 5+ person team.
- Analyzed 50+ daily geopolitical news sources to synthesize reporting for senior officials, translating high-volume data into concise executive summaries.

PROJECTS

Simple Social | Personal Project | <https://github.com/alpatamerr/Social-Media-App>

Tech Stack: FastAPI, Python, Streamlit, SQLite, JWT, ImageKit CDN

- Built a full-stack web application featuring an asynchronous FastAPI backend, secure JWT user authentication, and real-time data feeds.
- Integrated ImageKit CDN to handle dynamic image transformations and optimize user-uploaded media storage workflows.

AI-Personalized Running Coach | MSc Dissertation Project | <https://github.com/alpatamerr/ai-personalized-running-coach>

Tech Stack: React, Python, Node.js, Express.js, PostgreSQL, REST APIs

- Developed a full-stack application integrating the Strava REST API to ingest, parse, and store 500+ activity records and performance data points.
- Implemented K-means clustering in Python across 3 performance metrics (cadence, pace, heart rate) to generate adaptive training recommendations.
- Integrated the OpenAI API to deliver contextual, natural language coaching insights through a responsive React interface.

SKILLS

- Languages:** Python, TypeScript, JavaScript, SQL, Bash
- Frameworks & Libraries:** FastAPI, React, Node.js, Express.js, Flask, Streamlit
- Cloud & Tools:** AWS (S3, RDS), Docker, Claude Code, CI/CD, PostgreSQL, SQLite
- API & Data:** REST APIs, JSON Schemas, Webhooks, Data Pipelines, HubSpot API, DocuSign API

ACTIVITIES & CERTIFICATIONS

- Codecademy Full-Stack Engineer Certificate | Aug 2024
- Participated in security-focused hackathons and technical workshops at the University of Birmingham;
- Coordinated international conferences as an Event Organizer at Bilkent University, leading a team of 5 to manage live event logistics, speaker relations, and direct attendee communication.
- Languages: English (Full Professional Proficiency) | Turkish (Native).
